All current transformers are supplied as standard with 5A secondary. 1A secondary available by request.
A range of accuracies are available including class 3, class 1, class 0.5, class 0.5S, class 0.2, class 0.2S, class 5P protection, and Class PX.

SPLIT-CORE CURRENT TRANSFORMERS

The Hobut range of split-core current transformers has been designed to meet the growing demand for installation into existing networks. The split-core allows installation without disconnecting cables. The products are ideal for retro-fitting and are therefore popular in the energy management and power factor correction industries.

RESIN CAST CURRENT TRANSFORMERS

Resin cast current transformers can be manufactured in any size depending on the project. Used widely for class X and protection applications our engineers will design products specifically for projects and can produce drawings in advance for customers approval.

HOBUT DATA SHEETS

Individual product data sheets are available for every HOBUT Current Transformer detailing dimensions, applicable standards, current range and accuracies.

All data sheets are available in PDF format on our website.

CUSTOM PRODUCTS

As one of the largest manufacturers of Current Transformers in Europe, Howard Butler Ltd. manufacture special CTs for various applications throughout the world. We manufacture high accuracy CTs such as 0.2S & 0.5S, protection CTs such as 5P10 & 5P20, Class X CTs and more. We supply:-

- power distribution utilities with high accuracy CTs for tariff metering
- OEM companies with branded CTs in tailored injection mouldings
- energy solution companies with a range of split-core CTs for fast installation into existing networks
- earth fault relay manufacturers with core balance CTs for measuring earth leakage
- electronic product manufacturers with miniature CTs for PCB mounting

We can provide a solution for every low voltage CT application.

HOBUT

Howard Butler Ltd is one of the largest UK manufacturers and suppliers of panel meters, current transformers, shunts and associated products. The company has been manufacturing in England for 100 years and have built a strong reputation for quality products.

● Design/Engineering

We have a team of specialist engineers who are regularly adding new products to the range, mostly designed to IEC, BS or DIN specifications.

Our continuous improvement program ensures established products are always updated.

● Production

Our factories are equipped with the latest production and test facilities. Comprehensive component stocks are held to enable fast deliveries of standard and special products.

● Quality

HOBUT products are manufactured to stringent Quality Control techniques and the company is approved to ISO 9001 certification.

● Service

Our aim is to offer customer satisfaction and our fully computerised sales and manufacturing system ensures close control of all orders and enquiries.

● Special Products

In addition to our standard range, we work with many customers to design products to their specific requirements.

● World Wide Web

Full product specifications, dimensional drawings and wiring diagrams can be seen on our web site. Our site is constantly updated with new product information.
