ELECTRICAL TRADING

EXTRA LOW VOLTAGE

1.0 INTRODUCTION

Verger Delporte UAE Ltd. is a private company incorporated with limited liability by AMIRI DECREE No. 28/77 issued on February 16, 1977 by the Ruler of Sharjah. Our head office is located in the Industrial Area of Sharjah and with our efforts to ensure prompt service in dealing thoroughly with customer needs, the company has opened branches in Dubai and Abu Dhabi. VD premises comprising of offices, factories, stores and showroom cover an area in excess of 13,000 square meters.

The company holds a very good reputation in the U.A.E. business field for its excellent performance and highly qualified technical team. We have been providing excellence all over the Gulf, particularly in the United Arab Emirates, in the fields of Electro-Mechanical Contracting, Switchgear Manufacturing, Electrical Trading, Information Technology and Low Voltage Systems.

We believe that Quality excellence is inseparable from Health, Safety and Environmental Protection and with that belief, the company is certified for ISO 9001:2015 – Quality,

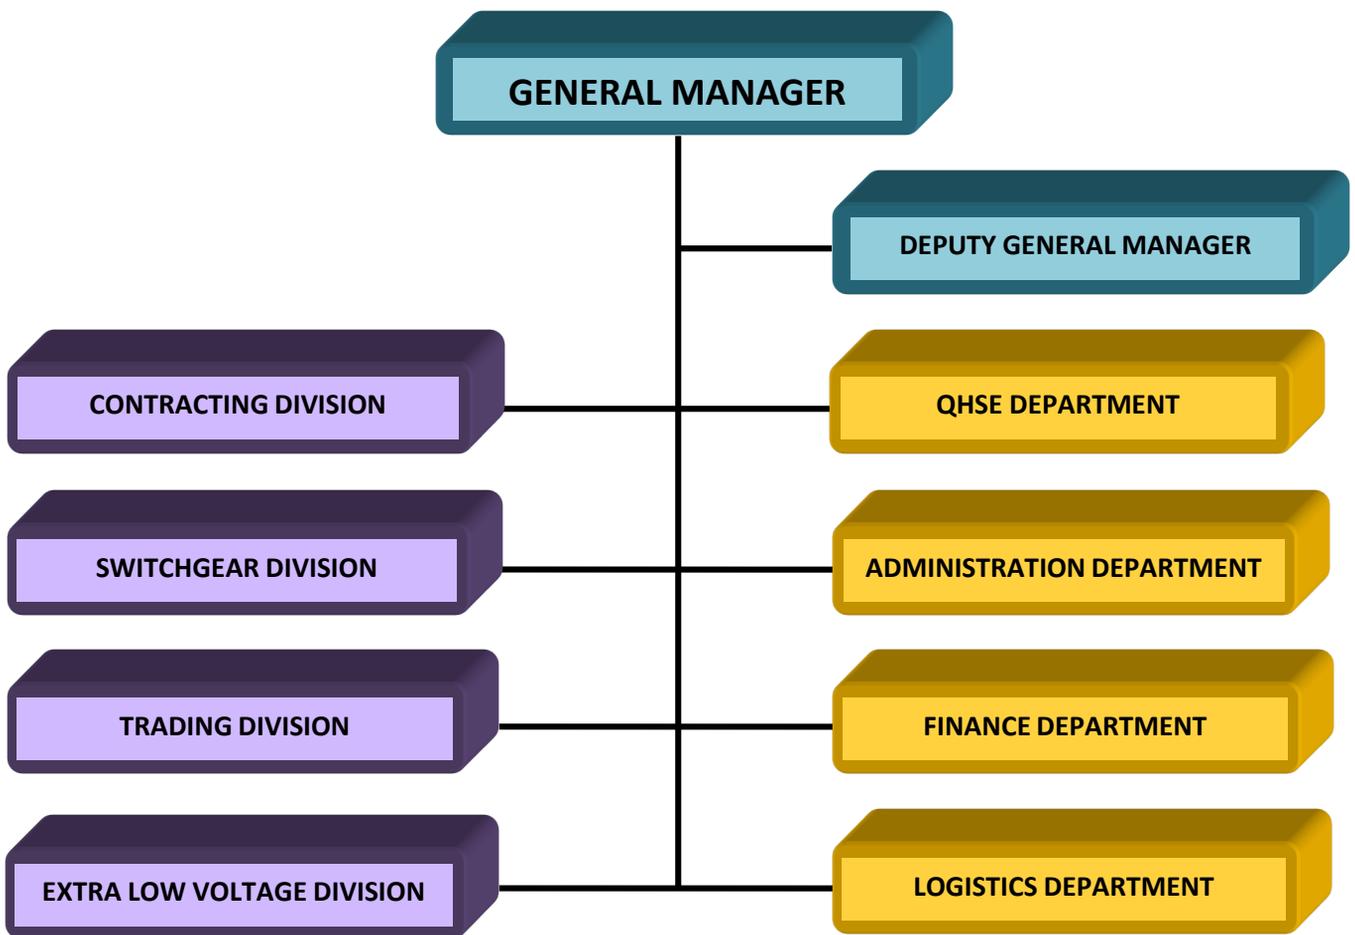

ISO 45001:2018 – Occupational Health and Safety and ISO 14001:2015 – Environment.

We are proud to say that today the company stands out as one of the pioneers in our scope of activities to attain the above certifications.

2.0 GENERAL ORGANISATION CHART

In order to address the complex and diversified customers' needs, Verger Delporte has organized itself in 4 operating divisions to cater to different market sectors, while at the same time benefiting from the support of 4 supporting departments as shown below.

3.0 OUR POLICY

VERGER DELPORTE

QHSE POLICY

Our philosophy is to focus on prevention and every individual / team is committed to “doing the right things right from the first time, every time”. Pro-active involvement and action is expected from all employees and sub-contractors for we believe that Quality, Health, Safety and Environment (QHSE) protection is the responsibility of everybody.

In order to achieve this goal and to build a QHSE culture, Verger Delporte shall:

- Provide products and services of the highest possible standards by listening to the needs of our customers and gather relevant feedback to improve our performance.
- Comply with all applicable legislations, regulations with specific reference to the Abu Dhabi Occupational Health and Safety System Framework (OHSAD SF), requirements of international standards and other requirements to which we subscribe;
- Ensure that Quality, Health, Safety and Environmental objectives are set, reviewed and achieved at all levels of the business with a focus on continual improvement in products, services, performance and resource.
- Ensure that the quality of service delivered to customers consistently meets or exceed their expectations and respond effectively to any concerns about the level of service provided.
- Provide leadership by example through managing HSE accountability, authority and performance as a line responsibility;
- Demonstrate commitment towards prevention of injury and ill health;
- Eliminate hazards and reduce occupational health and safety risks. Provide a secure and safe work environment to protect all employees, sub-contractors and any other persons visiting our work sites from harm;
- Ensure occupational health and safety risks and opportunities of our personnel are identified and necessary control measures are taken;
- Ensure that the views of workers and their nominated representatives are taken into account through the conduct of consultation and participation meetings especially in making Occupational Health & Safety decisions that may affect our workers' health and safety.
- Promote HSE awareness to ensure that all employees and sub-contractors understand and accept ownership that they are responsible for their own safety and that of others around them;
- Provide appropriate information, systems of communication, instruction, training and supervision to maintain and continually improve the competence levels of all employees and the overall QHSE performance of the company.
- Ensure pollution prevention by minimizing the environmental impact of our operations, where reasonably practicable, by reducing energy consumption, use of fuel and implementing initiatives to reduce waste to landfill.
- Continue to develop a positive Quality, Health, Safety and Environmental culture across the organization, involving employees in the development and implementation process.

Therefore, QHSE will always be a consideration in all our internal and external business activities.

This policy statement shall be communicated to all employees, suppliers, sub-contractors; prominently displayed for visitors and will be made available to the public, stakeholders and any other interested parties on request.

Mr. Pierre CAMUS - Chief Executive Officer (CEO) - 8th of March 2021

4.0 SCOPE OF ACTIVITIES

4.1 CONTRACTING

Verger Delporte UAE Ltd.'s Electrical and Mechanical Contracting division undertakes contracts on the full electro-mechanical spectrum. This includes Air-conditioning, Electrical, Plumbing, Fire alarm, Fire fighting and Low Voltage Systems (Central Public Address / Music, Central Satellite TV Systems, Uninterruptible Power supply System etc.). Well established over the years, the division has proven its ability in the MEP segment for the quality and standard of work delivered.

4.2 SWITCHGEAR

Under the **franchising agreement with Schneider Electric**, Verger Delporte UAE Ltd. Switchgear Manufacturing Division provides high quality low voltage switchgear assemblies, motor control centers and related services. The company offers comprehensive services related to the design and implementation of power and control systems ranging from residential and commercial installation to large industrial process plants.

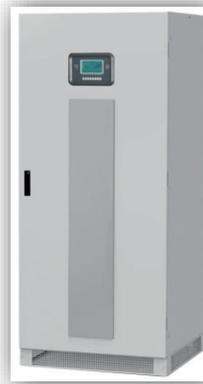

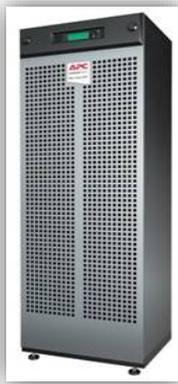

4.0 SCOPE OF ACTIVITIES

Switchgear Division also takes on broad services related to UPS. The activities include design, installation, testing and commissioning of uninterruptable power supplies.

The new systems has robust solutions for low-end UPS systems to critical Data Center deployment. The world class solution offered for all types of business verticals allows to position efficient and right-sized installations. The entire range of products needed towards installation of Network Critical Physical Infrastructure (NCPI) is available under this new system's umbrella of products and services.

Moreover, the company also offers a wide range of UPS systems starting from the entry-level of (1000 VA) single phase to three phase based UPS systems including DC UPS. Our UPS installation team has been trained hands-on by the principals and has plenty of experience to handle all kinds of UPS installations.

4.0 SCOPE OF ACTIVITIES

4.3 TRADING

Being the **official distributor for Schneider Electric** for years, Verger Delporte UAE Ltd. built its initial strength on its Trading Division being totally committed to selling Low Voltage Electric Products from Schneider Electric. Over the years we have grown in leaps and bounds and have consolidated our strengths by having showrooms at strategic locations in Dubai and Abu Dhabi.

4.0 SCOPE OF ACTIVITIES

4.4 EXTRA LOW VOLTAGE

Extra Low Voltage Division offers Building Management System and Information Technology services. The division is having a **Partnership agreement from Honeywell** for Building Management System in various Domestic, Residential and Commercial Buildings, in and around UAE. Our works will also include supply of Air valves, BTU Meters and various other Stand Alone Controls. We are specialized in providing Automation Controls in various Government Substations, Hospitals inclusive of HVAC Controls related works.

PRODUCTS

PROJECTS

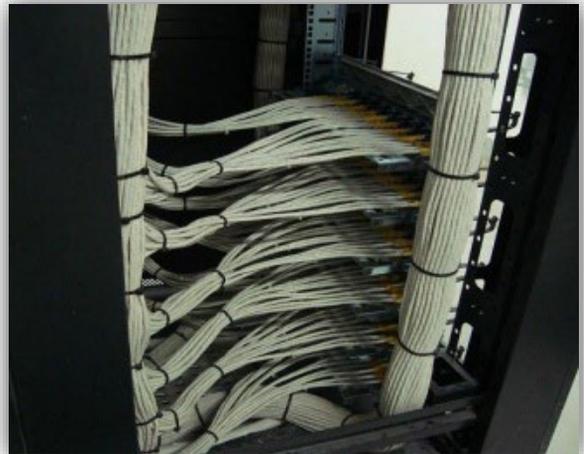

4.0 SCOPE OF ACTIVITIES

While the **Information Technology** activity takes on a broad range of services related to IT: Activities include, design, installation, testing and commissioning of structural cabling systems, data center solutions, uninterruptible power supplies and trading of IT products. The components detailed above, form the crucial back-bone of any IT infrastructure, in today's business operations.

VD has been in **partnership and has worked extensively with Reichle and De-Massari AG (RandM) Switzerland**. We have carried out plenty of critical infrastructure installations through RandM's complete product range from Copper and Fiber Optic cabling solutions. The top-quality, high-performance products, coupled with Verger's trained/certified group of installers, allows for optimum deployment of IT cabling infrastructure.
